

If you are working with H Class Hazardous Dust, you will find the perfect wet & dry solution here. Choose from 3 different container sizes and other features which enhance your working efficiency.

The ATTIX 30-OH is a small machine with big performance and high mobility.

The ATTIX 50-OH is a mid-size machine with Push&Clean filter cleaning system.

The ATTIX 751-OH features a large stainless steel container which can be easily emptied by tilting or lifting off the robust frame.

In all models, operating costs are minimised and user-friendliness reaches an all-time high with the low working noise level which lets the operator work when others are nearby without disturbing them. An Airbox is available as an accessory which performs the same function when using pneumatic tools.

- Industrial specifications, robust construction, and powerful
- Push&Clean is a filter cleaning system which allows you to clean the filter in seconds... and continue your work
- SilentPower. High performance that is seen, but not heard
