

**Works almost
as hard as you do**

Supporting better farming through better cleaning

Performance that makes a difference in your day

Agricultural success hinges on cleanliness: proper sanitation provides a safer workplace for you and your employees, optimises living conditions for your livestock, prolongs the life of your equipment, and improves your business results.

But farming is hard work, and optimal cleaning performance isn't always easy to achieve in the midst of other challenges. With that in mind, Nilfisk solutions are engineered to make cleaning fast, easy, and highly effective from one day to the next. Whether your pressure-washing, vacuuming, or sweeping – indoors or out – our equipment works almost as hard as you do.

Professional vacuums

Minimise dust, dirt, and debris – and maximise air quality

Taking standards of interior cleaning from “good enough” to “ideal” is a Nilfisk specialty, and our vacuums help farmers do just that. Built with an uncompromising focus on performance, safety, and durability, Nilfisk professional vacuums will help you handle waste-containment tasks in the toughest environments.

From wet or dry dirt to ATEX-designated explosive dusts and residues, inside buildings or vehicles, our high-capacity models help safeguard your farm's employees and products by providing a cleaner and healthier work environment.

- Dual- and single-motor models for tasks of varying scale
- Large-capacity vacuum bags with safe, simple disposal
- Consistent performance with acoustic or LED notification systems
- Robust body and hose designs designed for frequent use and transport
- Manual or automatic filter-cleaning systems, with M- or H-class filtration
- Wide range of accessory attachments for optimal task flexibility

High-pressure washers

Performance that makes a difference in your day

When cleanliness is essential to your business operations, Nilfisk pressure washers can be trusted to excel against any cleaning challenge. Resource-efficient, ergonomic, and powerful – regardless of which model you choose – they leave surfaces spotless, minimising environmental risks from pathogens and prolonging equipment and vehicle lifetime.

Available in hot or cold-water configurations, electric or petrol-driven, and mobile or stationary, they offer exemplary levels of pressure, flow, handling and varying hours of use within each performance class. The result is a standard of clean that enables safer, more productive, and more profitable farming operations.

- Optimised combination of pump pressure, water flow, and resource-consumption
- Fully serviceable pumps with heavy duty piston systems
- Available as both mobile and fixed installation solutions
- EcoPower™ boiler technology offers market-best boiler efficiency
- Large wheels and small footprint for convenient transport and easy storage
- Ergo accessory system for increased task flexibility

High-pressure washer accessories

Make any job an easy job

Pressure-washing efficiency is all about having the right tool on hand. Our accessory range helps ensure that you get any job – and every job – done as quickly as possible, with as little operating effort as necessary.

- Rotary-jet lances for fast, complete removal of dried dirt or animal waste
- Foam-producing lances for improved detergent bonding when removing biofilm from surfaces
- Short or long lances for improved access to challenging spaces
- Tank filters to protect equipment from low-quality water sources
- Floor cleaners for final rinsing and washing after dirt-removal

It's now very easy to just grab a hose and get the job done."

Sweepers

Keep pathways clear, safe, and accessible

Dirty indoor and outdoor floor spaces present their share of challenges to farming operations in terms of accessibility, bacterial management, pest control and safety. To keep farmyards and storage areas accessible, the Nilfisk sweeper portfolio offers manual, petrol-fueled, or battery-powered solutions for minimising dust, debris, and associated hazards, available in

walk-behind or ride-on models. Engineered for high-volume collection of anything that gets in the way, their reliable design and exemplary durability make short work of the largest sweeping jobs and subsequent disposal, leaving behind pathways and yards which contribute to safer, easier workflows.

- Single- and dual-broom configurations for optimal coverage
- High-volume hoppers with easy opening and disposal
- Large, sturdy wheels for high mobility and easy transport over uneven terrain
- Ergonomic, adjustable handlebars for minimal operator fatigue over long use
- Rugged, corrosion-proof frames well suited for outdoor cleaning
- Simplified mechanics for minimal service requirements

Custom agricultural solutions

Match your unique needs with tailored expertise

No two farms are exactly alike, and neither are their operational challenges or business targets, so Nilfisk also offers fully customisable solutions for keeping your farm running cleanly and smoothly. Whether you need a stationary pressure

washer or industrial vacuum solution, or a full-scale bespoke offering that guarantees optimal working conditions, we're ready to offer decades of industry knowledge and engineering skill.

Contact your Nilfisk representative to learn more.

“

With our Nilfisk equipment, we work smarter, save time, and experience a better working environment.”

OLE ANDERSEN, BLAKSHØJGÅRD FARM, DENMARK
